Product Optional Accessories

Single Slot Cradle

Single slot Ethernet Cradle

4 Slot Cradle
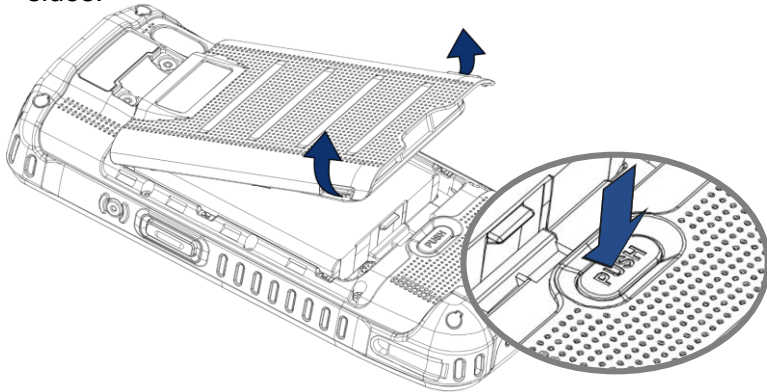

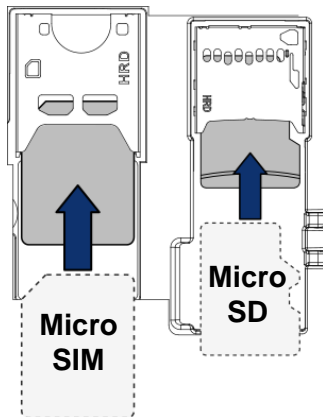

4 Slot Battery Cradle

Gun handle

Install SIM, SD card

PM67 supports micro SIM and microSD card. (SIM card is supported by LTE SKU only.)

1. Open the battery cover while pressing the battery cover release button. Pull the cover up using small hole on both sides.

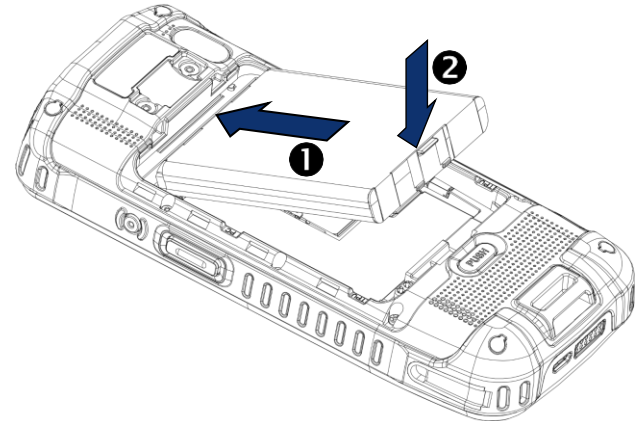

2. Insert the SIM card and SD card into proper slot in the correct orientation. (Gold contact must be facing down.)

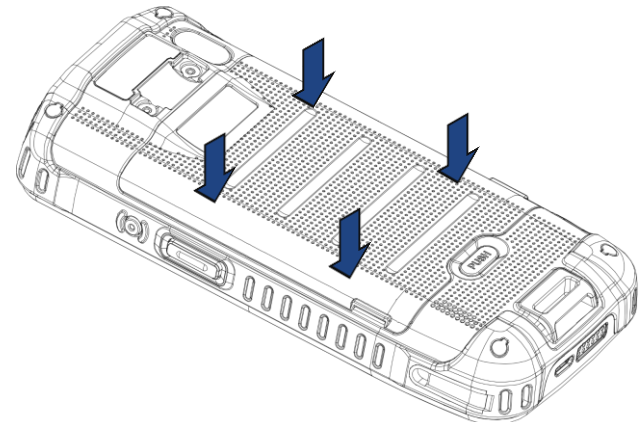

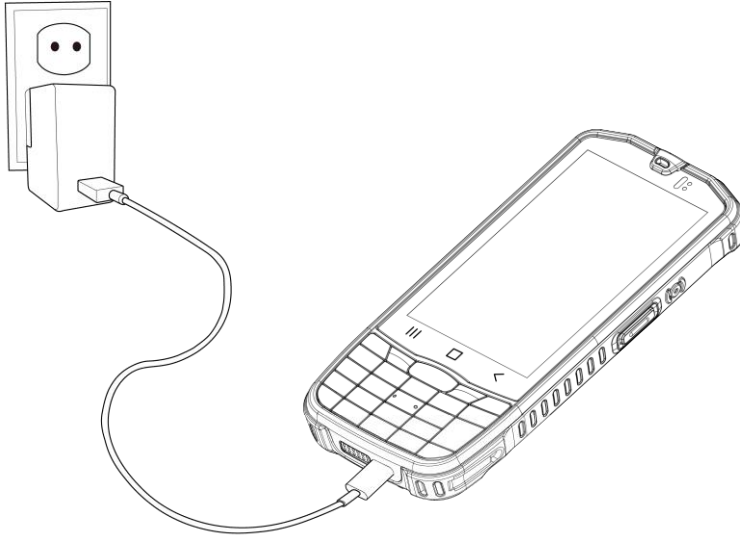

Install Battery

1. Open the battery cover while pressing the battery cover release button.

2. Insert the battery from top to bottom with the contacts facing down.

3. Close the battery cover from the top and close it firmly.
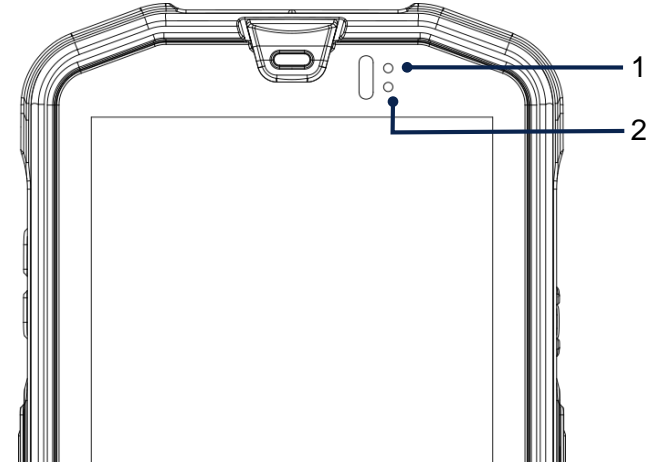

Charging the Device

1. Assemble the AC/DC power supply, country plug and USB type C cable.

2. Connect the USB type C cable to PM67.

3. Provide power by plugging the power supply to the wall socket.

You can charge the device with charging cradles (Sold separately), too.

< Caution >

1. Always use an original power supply from Point Mobile. Other chargers and cables may damage the PM67. The device warranty does not cover any damage caused by the usage of non-original power supplies.

2. Make sure the charger and cable is not wet.

LED Indicator

No	Indicator	Status	Indication
1	Power LED	Solid red	Charging the device (With charger) / Battery is low (Without charger)
		Blinking red	Charging temperature is too low or high (With charger) / Battery is critical low (Without charger)
		Solid green	Device is fully charged
2	Notification LED	Blinking blue	Notification existing
		Red flash	Barcode reading failed
		Blue flash	Barcode reading success

Turn on / off
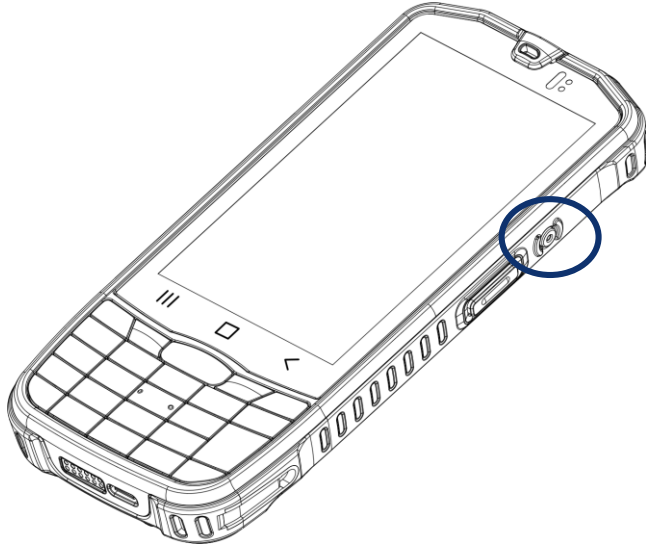

Turn on

Press and hold the **Power** button on the right side of PM67 until **SMART BEYOND RUGGED** logo displays on the screen.

Turn off

When the screen is on, press and hold the **Power** button until the power menu is shown.
Then, tap **Power off** among the menu.

Scan a Barcode

Scanner is placed on the top of the PM67.

Scanner is disabled by default, so enable the scanner from **ScanSettings** first.

Then, press a scan button on the device to scan a barcode.

Ideal Aiming

Center the green dot aimer or the cross-hair laser aimer over the barcode.
The entire barcode must be inside the illumination square.
